

## ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY POLICY

### As TÜV AUSTRIA TURK,

- ✓ To comply with all laws, regulations, legislation and administrative regulations related to Environment and Occupational Health and Safety,
- ✓ To implement and maintain the Environmental and Occupational Health and Safety management systems effectively,
- ✓ To carry out all stages of our activities in a healthy and safe working environment with a proactive approach to Occupational Health and Safety,
- ✓ To determine, implement and enforce all necessary measures for the prevention of work accidents and occupational diseases,
- ✓ To make the Occupational Health and Safety culture a business lifestyle, to develop and spread environmental awareness,
- ✓ To use energy and natural resources at the optimum level, to prevent pollution at its source with the principle of sustainability, to reduce waste at its source and to recycle by separating wastes,
- ✓ To ensure that our employees are aware of occupational health and safety through the trainings we provide for visitors and interns,
- ✓ Pre-evaluation of emergencies, taking preventive and restrictive measures against the negative effects of emergencies,
- ✓ Encouraging and ensuring their participation in compliance with the laws and TÜV AUSTRIA TURK's Environmental and OHS methods and principles, taking into account the Environmental and Occupational Health and Safety factor in its services;

We declare and undertake.
